PROFESSIONAL SUMMARY

Full Stack Developer specializing in the MERN stack with hands-on experience in building scalable web applications, RESTful APIs, and real-world production systems. Skilled in React.js, Node.js, and MongoDB with practical exposure to authentication systems, third-party integrations, and performance optimization. Experienced in developing and contributing to production-grade platforms including CRM systems and AI-powered applications.

SKILLS

- **Programming Languages:** JavaScript, Python, C
- **Frontend:** React.js, Next.js, Tailwind CSS, HTML, CSS
- **Backend and APIs:** Node.js, Express.js, Laravel, RESTful APIs, JWT Authentication, MVC Architecture
- **Databases:** MongoDB, MySQL
- **Version Control and Tools:** Git, GitHub, Redux, VS Code, Antigravity, Postman, Vercel, Render

INTERNSHIP EXPERIENCE

• Nodesure Technologies

Feb 2026 – Present

Software Development Engineer Intern

Jaipur, India

- Contributed to a production-grade CRM platform (Connverz) handling campaigns, automation workflows, and real-time messaging systems.
- Integrated third-party services including Razorpay, Stripe, WhatsApp APIs, and Meta integrations for payments and messaging automation.
- Developed an AI-powered Voice Agent system using Twilio, OpenAI, and ElevenLabs with real-time speech synthesis and streaming.
- Engineered Shopify-WhatsApp integration with dynamic product handling, variant selection, and AI-assisted sales workflows.

• Tensax Innovation Lab

Feb 2025 – May 2025

Full Stack Intern

Jaipur, India

- Engineered and optimized 3+ web and hybrid applications, improving load performance by 30% through efficient component rendering with React.js and SvelteKit.
- Integrated MongoDB Atlas with secure authentication workflows, reducing login-related issues by 20% and improving account security.
- Built 10+ reusable UI components using Tailwind CSS, reducing frontend development time by 25%.

PROJECTS

• Move Ease – The Smart Way to Move

Mar 2025 – Aug 2025

Tech: React, Node.js, Express.js, MongoDB, Google Maps API, Razorpay, Tailwind CSS, JWT, Cloudinary

- Built a full-stack logistics marketplace with role-based dashboards (customer, mover, admin) and secure JWT authentication.
- Implemented distance-based pricing using Google Maps APIs and Razorpay payments.
- Developed scalable REST APIs and booking workflows with commission system, wallet management, and automated settlement logic.
- Designed responsive UI with search, comparison, and real-time booking features; deployed on Vercel & Render

Live: mvease.vercel.app

• Talk Fusion – Full Stack AI Chat Application

Oct 2025 – Nov 2025

Tech: React (Vite), Tailwind CSS, Express.js, MongoDB, Groq AI, Axios, Render

- Built a full-stack AI chat app supporting real-time, multi-turn conversations with a responsive UI.
- Integrated LLM APIs with backend-driven prompt and context management.
- Designed scalable backend workflows for AI responses, error handling, and rate limiting.

Live: talk-fusion-chat.vercel.app

EDUCATION

• Vivekananda Global University

July 2023 - July 2026

B.Tech(CSE)

Jaipur, India

- CGPA: 8.30/10.00

ACHIEVEMENTS

- Solved 250+ DSA problems on CodeChef, strengthening problem-solving skills.
- Maintained a 100-day coding streak, demonstrating consistency and discipline.
